In addition, since software enables computers to send and receive faxes, the need for a fax machine is limited. Note: because inbound computer faxes are usually captured as photos, you can obtain optical character recognition ( OCR ) software to convert the text into a computer-readable format. This will allow you to manipulate the text. If your signature is required, software can be used to paste your signature onto a document to be faxed ( since a signed fax may be just as valid as a hand-signed document sent through the mail ). E-mail Today, e-mail is the primary method many large businesses use to communicate internally as well as externally. It is an inexpensive and expeditious way to stay in touch with employees, contractors, customers, agents, etc. E-mail is very important since it is a method...
